

Dual Warranty™ Protection

Assurance from SolarWorld

Innovation goes beyond solar panels with SolarWorld's Dual Warranty™ plan. We combine the quality you expect and the peace of mind you deserve without hassles or hidden costs. In addition to our industry-leading performance and workmanship guarantee, this coverage is designed for and owned by you. The warranty protects solar panels at no additional cost^{1,2}. SolarWorld's Dual Warranty plan is created for the specific needs of residential solar system owners.

SolarWorld Sunmodules - The world's most reliable solar panels

With nearly a half-century of experience in manufacturing, we are able to produce the highest-quality solar panels in the industry. Now we are bringing industry-leading products and protection together with the SolarWorld Assurance™ warranty program. As the only major solar panel manufacturer with products in operation longer than their original warranty, you can have confidence that your SolarWorld purchase will perform as promised.

¹ During the introductory period, there are no premiums or deductibles for SolarWorld solar panels installed beginning January 1, 2017. For installations prior to that date, see the [Extend Warranty™ plan](#) for details.

² For systems up to 50 kilowatts.

³ If the original warranty can no longer be supported, 15 years of coverage begins immediately.
